

INTRODUCING

Creating a User ID for the Cloud..

DKS Cloud Logging In

Each person will
need a User ID
and password

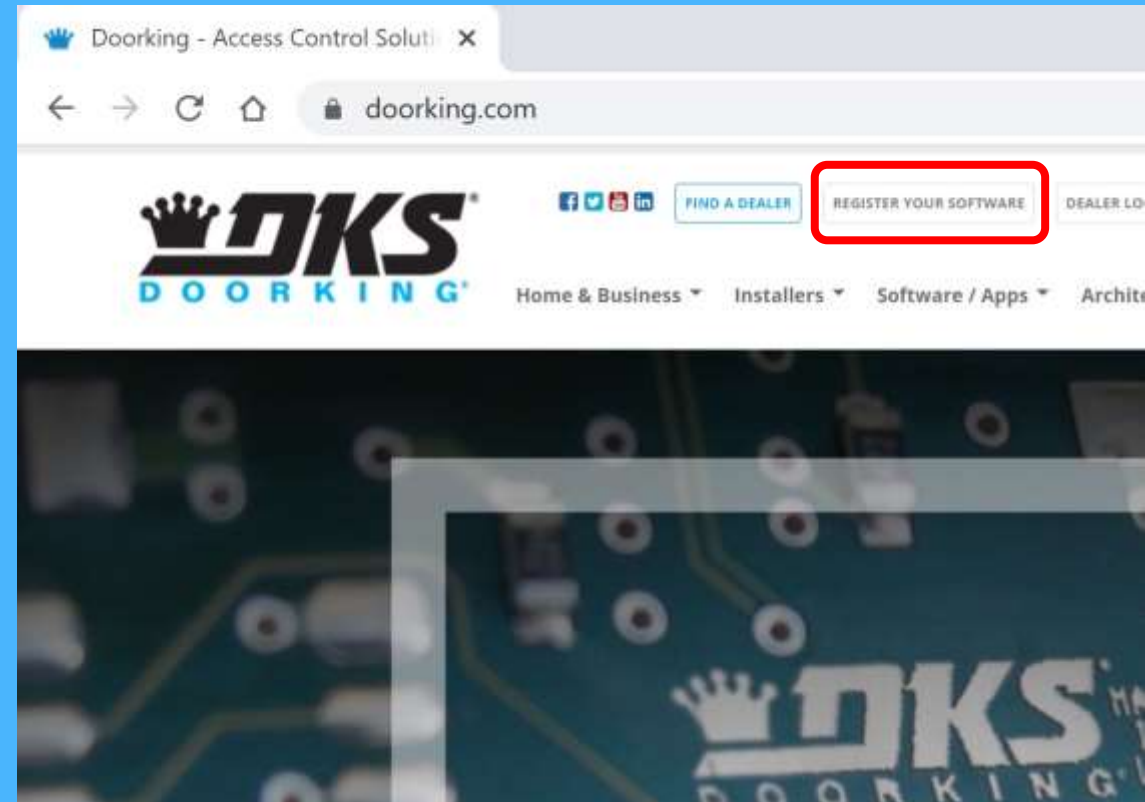

The screenshot shows the DKS Cloud login interface. At the top left is the DKS Cloud logo. Below it is the URL <https://access.doorking.com> in blue text. Underneath the URL is the word "LOGIN" in black. The main login area is enclosed in a light gray box and contains two input fields: "User ID" with the text "rmiller-demo" and "Password" with masked characters "*****". Below the password field is a dark gray "Login" button. At the bottom of the box is a blue link that says "Forgot Password?".

DKS Cloud Management

Creating a User ID:

- Go to:
<https://www.doorking.com/>
- Click on:
Register your software

DKS Cloud Management

Creating a User ID:

- Select:
IM / DKS VoIP

The screenshot shows the 'DKS Registration' page on the website dksdb.dksoftware.com. The page title is 'DKS Registration' and the sub-header is 'Choose your Registration Type.' The page contains two main options: 'IM / DKS VoIP' and 'DKS Cellular'. The 'IM / DKS VoIP' option is highlighted with a red box. Below the options, there are detailed descriptions for each registration type, including 'DKS VoIP', 'DKS Data over IP', 'IM Server Modem', and 'Data Entry'. The 'IM / DKS VoIP' option is described as: 'Choose this option to activate any of the following registrations: DKS VoIP: Utilize the DKS Voice-Over-IP telephone service, and program your entry systems using our Plug & Play* networking. • Voice and Data Service For 1830 Series entry systems. • Voice Only Service For all DoorKing entry systems. DKS Data over IP: Plug & Play Internet programming. • Data over IP Service (formerly IM Server Client). For 1830 Series entry systems with an existing phone line. IM Server Modem: Program your entry systems over the internet from your PC using the existing telephone line connected to the entry system. Data Entry: For those programming entry systems that already have an active subscription. Or if you program your entry system using a direct connection or your own PC modem.'

DKS Cloud Management

Creating a User ID:

- Fill in the Contact Information
- Choose a User ID
- Choose a Password
- If the “Register” button is not live, check that email and passwords match

DKS DOOR KING

Register your DoorKing Account Manager software to receive update notifications and other benefits, and to enable Internet programming via the DK IM Server.

This is step 1 of 2:

1. Registration.
2. Internet programming setup (optional).

If you have already registered, [log in here](#).

DKS Cloud Management

Permitting Cloud access:

- Register as a Data Only user.
- Click on “Done”

DKS DOOR KING

Software Registration

Logged in as:
Jane Doe
[DKSCloud-DE]

Decide whether you'll be using Internet Programming.

This finishes step 1 of 2:

1. Registration.
2. Internet programming setup (optional).

[Live Chat now](#)

Please select one of the following three options (you can change this selection later by logging into your Profile page).

I want to program my Entry Systems over the Internet using the IM Server Modem, DKS VoIP Voice + Data or DKS Data over IP services, or to use DKS VoIP Voice-Only service.

Choose this option to set up and activate any IM or DKS subscriptions for use with your Entry Systems:

- DKS VoIP Voice and Data Service - voice (phone) and data transfer over your Internet connection.
- DKS VoIP Voice Service - voice (phone) service over your Internet connection.
- DKS Data over IP - Plug and Play programming over your Internet connection.
- IM Server Modem - use your PC's Internet connection and our Modem Server to program your Entry System over its existing land line phone.

Selecting this enables you to register your entry systems for use with any of the above options.

I am registering as a 'Data Only or Cloud User' user, in order to program systems which already have IM Server subscriptions, or to program systems for which I have a manually configured direct connection.

Choose this option if you will be doing either of:

- Logging into the DKS Cloud and programming systems that I have been given permission to access.

Done

DKS Cloud Management

Permitting Cloud access:

- ✓ The “registered owner” can grant access to other “user id’s”:
 - ✓ Office staff for programming
 - ✓ Service techs

DKS Cloud Logging In

Log in using
your IM Server
or DK Cellular
User name and
password.

DKS Cloud Management

Permitting Cloud access:

- When this person logs into the cloud under their User ID they will see these systems and can work on them.

A screenshot of a web browser displaying the DKS Cloud Management interface. The browser address bar shows "access.doorking.com/EntrySystemManager.aspx". The interface has a menu bar with "FILE", "VIEW", "ACTION", "OPTIONS", and "HELP". Below the menu bar are several icons and labels: "Snd Data", "Rcv Tran", "Activity", "Messages", and "Share Info". On the left side, there are links for "Scheduled Transfers", "Entry Systems", and "90 demo". The main content area displays a table with the following data:

	Entry System	Contact Name	Contact Phone
1	90 demo	Tech Support	800 826
