## ONLINE ZOOM\* WORKSHOPS

### Partial Courses List:

#### Welcome to the Cloud Programming

Introducing the DKS Cloud. Changing the way the DoorKing databases are managed.

#### Watch your shorts, and don't let the smokeout!

This webinar on wiring and termination techniques for Gate and Access Control systems will provide many useful field tips for installers and technicians.

#### Dump Phone Lines Forever

Why you should never again use a telephone line on a DoorKing Entry System installation.

#### Working with Multi-Meters and Test equipment

Having and knowing how to use a multi-meter to test gate operator system components is critical to any installation and service technician.

#### Troubleshooting is a State of Mind

This Webinar will help you develop a logical approach to trouble shooting automated gate systems, and provide you with specific trouble shooting steps for DoorKing gate operators.

#### Troubleshooting Telephone Entry and Access Systems Check

This webinar will discuss how to take a logical, systematic approach to troubleshooting

# 2-DAY HANDS-ON WORKSHOP DETAILS

**Who Should Attend:** Installers and Dealers

**Instructors:** DKS Regional Managers and Factory Specialists

**Where:** Nationwide

**When:** See the Calendar and Required Registration  
at: [doorking.com/training](http://doorking.com/training)

**Course Fees:** See fees at [doorking.com/training](http://doorking.com/training)

## 2-DAY HANDS-ON WORKSHOPS

DoorKing 2-day, hands-on **workshops provide training to install, operate and maintain our Access Control, Telephone Entry and Vehicular Gate Operating products.** All of our Training Seminars focus on the emerging technologies in telecommunications, including cellular, VoIP and other wireless technologies, and include updates on UL 325, ASTM F2200 and UL 294 standards as they apply to DoorKing products so that installers and system designers are up to date on current industry safety standards and requirements. These Training Programs are full day sessions that focus on installation, wiring and programming, with attendees working with live equipment.

**2-DAY HANDS-ON WORKSHOP | 7:30 AM TO 3:00 PM**

### Day 1 Access Control Workshop

Attendees work with an 1830 Series Controller, Card Readers and Tracker Boards to build a working Access Control System.

### Day 2 Gate Operator Workshop

Work stations are set up with various DoorKing Gate Operator models. Attendees will wire various types of controls and accessories into the Gate Operator to set up a fully functional Gate System.

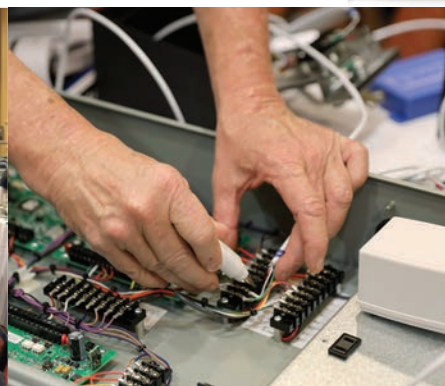

Schedule the 2 sessions on consecutive days to tie your Access Control System from Day 1 into the Gate System on Day 2 to practice building a fully interactive system.

\* When the two Full Day Sessions are combined, attendees will tie their access control system from Day 1 into the gate system for a fully interactive system.

Attend any of our workshops or webinars and earn CEUs towards IDEA and ACI certifications

# DISTRIBUTOR DAY AND REGIONAL SEMINAR DETAILS

**Who Should Attend:** Installers, Sales and Office Personnel

**Instructors:** DKS Regional Sales Managers and Factory Specialists

**Where:** Over 100 Distributor Locations Nationwide

**When:** See the Calendar and Required Registration at: [doorking.com/training](http://doorking.com/training)

**Course Fees:** Free, Contact your Distributor or DKS Regional Sales Manager

## DISTRIBUTOR DAYS

Distributor Days are a great way for Dealers to keep up on new products and get valuable training for sales and technical staff.

**The sessions are held at the Distributor's location and typically run for a half or full day.** The sessions are classroom style and more discussion-oriented, rather than hands-on. Typically, the Regional Manager will use Power Point presentations and handouts to focus on selected products or product groups, and may often include product demonstrations.

## REGIONAL SEMINARS

**Regional Seminars are full day sessions held at a Hotel meeting facility.** These seminars provide information about new products as well as valuable sales and technical training on various DoorKing systems. Each Regional Seminar will focus on 2 or 3 modules that are most appropriate to that region. There are various modules available for these Regional Seminars, including:

- Gate Operator Service, Trouble Shooting, & Maintenance
- Gate Operator Installation
- Parking Gate and P.A.M.S. systems
- Telephone Entry Installation
- Understanding Cellular, Internet (VoIP) and other connection methods
- 1812 and 1812 AccessPLUS systems
- 1830 Series Access Control Workshop
- Wireless Expansion - setting up and troubleshooting
- Software Programming and Networking
- Understanding industry safety standards, UL325, ASTM F2200 and others

\* Each Regional Seminar will focus on 2 or 3 of these modules as may be appropriate for the region.
